

Superior results, efficiency and reliability.

Fagor provides real solutions for streamlining
your laundry operations.

**65
YEARS**

Over 65 Years of
Global Leadership
and Expertise

Fagor washers and dryers come standard with touch controls and advanced technology to save time, water and energy. With FagorKonnnect, offered at no extra cost, you can remotely control every parameter of your machines from temperature, water levels, speed and more - at any time, from anywhere. Machines range from 25 lb to 275 lb. capacities.

Did you know?

Fagor Advance Dryers are available with Residual Moisture Control and come standard with Reversing. With Reversing, you'll see faster drying, energy savings, increased production and reduced wrinkles. Our Residual Moisture Control sensor has proven to be the best in the industry time and time again. By accurately drying to your pre-set moisture level, you will significantly increase the lifetime of your linens and bedding.

Add a Fagor flatwork ironer to your laundry room for even greater production and superior results!

**Let's start improving your
laundry operations today!**
